

Card Sorting / Trust Center Changes

Preference Synthesis

Source: Figma Board (nagsqwxkeU1Z0NAUOxJQ0y, node 59:1082)

Captured: March 28, 2026

This board captures the preference synthesis results from card sorting research on Trust Center changes.

Key Findings by Excitement Level:

- Excited: 7.5 / Neutral: 0.5 / Scared: 0 — New header bar + search selector (highest rated)
- Excited: 7 / Neutral: 2 / Scared: 0 — Preview links in Trust Center (strong positive)
- Excited: 7 / Neutral: 2 / Scared: 0 — Open/Card styling options
- Excited: 7 / Neutral: 0 / Scared: 0 — Combined/Separate selector with search
- Excited: 5.5 / Neutral: 3.5 / Scared: 0 — User Profile with side-panel documents
- Excited: 5 / Neutral: 3 / Scared: 0 — Rollback with 2 weeks notification
- Excited: 4.5 / Neutral: 5.5 / Scared: 0 — Horizontal banner format
- Excited: 4 / Neutral: 5.5 / Scared: 0.5 — Staging preview capability
- Excited: 4 / Neutral: 5 / Scared: 0 — Feature list/banner (low negativity)
- Excited: 3.5 / Neutral: 5.5 / Scared: 1 — On-line TC mode (needs more research)
- Excited: 3 / Neutral: 6 / Scared: 0 — No overlay (no strong feelings)
- Excited: 2 / Neutral: 7 / Scared: 0 — Updated badges (neutral/low priority)
- Excited: 2 / Neutral: 6 / Scared: 1 — Push notifications for changes (mixed)
- Excited: 2 / Neutral: 5.5 / Scared: 1.5 — Welcome modal/Trust Center Admins (some concern)

Overall Themes:

- Search and navigation improvements are the most positively received changes
- Visual styling options (open vs card) generate excitement
- Preview functionality is universally wanted
- Structural changes (modals, notifications) generate more caution

- Badge/metadata changes are lowest priority for users
